

Superfund Task Force
Possible Case Studies for July 2019 Report

Instructions: OSRTI recommendation lead fills in all columns. Link to upload picture/caption is in first header.

Rec. Number(s)	Site Name, State	Reason for Including	Name of OSRTI Recommendation Lead	Jim/Dana Concur (Yes/No)	Region Concur (Yes/No)	Picture and caption uploaded Here (Yes/No)
1,2	Fulton Terminals, NY Whitehouse Oil Pits, FL Frontier Hard Chrome, WA	These 3 FY18 full site deletions occurred at sites that were listed on the very first NPL rule on 9/8/93. This could be a success story based on recent messaging of sites being on the NPL too long. Could cover 1 or all 3.	Hovis	TBD	TBD	TBD
1	West Lake Landfill OU1, MO	Placement of the site on the AEL brought senior agency leadership attention and focus, which facilitated completion of the Record of Decision.				
3	Big River Mine Tailings Site, MO	Region 7 is applying adaptive management principles through several pilot studies to test the efficacy of various methods to address contaminated sediments in a 100 mile stretch of river. These studies will inform future records of decision for the site and other similar sites.
